## 20 Gauge Braun IV Catheters Back in Stock

Currently, our IV catheter supply is back to full stock!

The supply chain is a dynamic situation as I am sure you can see and feel as a consumer. We want to be transparent about our supply as we know ultimately can affect patient care and allow you the opportunity to look for alternative options as we do the same.

If anything should change, we will reach back out to you. We appreciate your support and understanding during this unprecedented time. As always, one team, one mission.

Please don't hesitate to reach out with questions at [bpdeere@premierhealth.com](mailto:bpdeere@premierhealth.com)
