

YOU ARE INVITED...

to a webinar.

American Heart Association.
Mission:Lifeline®

2023 Mission: Lifeline® EMS Recognition February 16, 2022 1:00-2:00 PM (CST)

For more than a decade, Mission: Lifeline® has worked to advance the system of care for patients with acute, high-risk time sensitive life and/or quality of life-threatening disease states, such as ST Elevation Myocardial Infarction (STEMI Heart Attack), Non-ST Elevation Myocardial Infarction (NSTEMI Heart Attack), and Stroke.

Since 2014, Mission: Lifeline EMS Recognition has showcased Emergency Medical Service organizations across the nation for providing their patients experiencing a STEMI heart attack with excellent care. The role of EMS in the system of care for these patients is vital and often sets the course for the patient's outcome.

Beginning with 2023 recognition (based on 2022 data), the Mission: Lifeline EMS Recognition program will include new stroke measures and an updated award structure. During this webinar, AHA staff will provide an overview of the new award structure, criteria and required measures.

REGISTER IN ADVANCE FOR THIS WEBINAR
