

# Miami Valley Hospital – Wyoming Street Construction

Wyoming Street from Colby Lane to Brown Street is currently closed due to construction. The closure is expected to last until November, 2017.

During this time, the **OB EMS Entrance and Emergency Department EMS Entrance will remain open**. Signs have been posted to help you navigate around the hospital campus.

Again, we anticipate this project taking four months to complete, however delays can occur due to inclement weather and other unforeseen issues. We apologize for any inconvenience the construction may cause and thank you for your patience during this time.
