

**Quarterly
Triage**

Day

Begins June 19, 2018 @ 0800

**ARE YOU
PREPARED?**

The image shows two overlapping triage tags. The top tag is for patient information and injury key. It includes a barcode, a name field, an age field, and a gender field (M / F). There is an 'Allergies' section with a diagram of a human body showing percentages for different areas: 40% for the head, 10% for the neck, 40% for the torso, 10% for the arms, and 10% for the legs. An 'Injury Key' section has five numbered lines for recording injuries. A 'TREATMENT KEY' section indicates that red, yellow, and green colors indicate the triage category. There are checkboxes for 'DIRTY' and 'DECONTAMINATED'. The bottom tag is for treatments and vital signs. It includes a barcode, an 'Access' field (IV / IO), and a 'Fluids & Amounts' table with columns for 250, 500, 1000, 1500, and 2000. It has a section for 'INDICATE TIMES OF TREATMENTS' with checkboxes for 'Pain' (Fentanyl, Airway, Tourniquet, Direct Pressure, Chest Decompression, Albuterol, Diazepam (Valium), Dextrose (e.g., D10), Glucagon, Midazolam (Versed)) and 'Chemical Treatments' (Cyanide Treatment, Atropen / Atropine, Pralidoxime (2-Pam)). There is a 'NOTES' section, a 'Location Pt. found' field, and a 'Transport Officer please remove prior to transport' field. A 'For Evidence/ Personal Effects Bag' section has checkboxes for 'Mark Triage Category HERE ONLY at time of Patient Transport.' and a QR code. The bottom tag also includes a 'Triage Category Ind' field, a 'Transport Officer prior to transport' field, and a 'Gender: M / F' field.

A tag on every patient for 24 hours

MCI Radio Talk Groups from 13-1500, 20-2200
