

Physician Scene Response

Indications for EMS to activate the MVH Physician Scene Response (PSR):

Field Amputation

When all available extremity extrication maneuvers have been unsuccessful and no alternative exists.

OR

Mass Casualty Incident

When an MCI occurs that would benefit from physician response, especially if incident is large/delay in transport (extrication, number of potential patients)/ exceptional locale (medical facility et al.)

ACTIVATION CALL (937) 208-3838

EMS Activation of the MVH Physician Scene Response

On scene EMS/Fire Incident Commander calls directly to the CareFlight Communication Center to request

“Activation of the MVH Physician Scene Response”

INFORMATION NEEDED FOR PSR RESPONSE:

- 1** General information regarding request
- 2** Location
- 3** Direct call-back number to Incident Command

Specifics of MVH Physician Scene Response:

CareFlight Communication Center will coordinate the response.

- MVH Level I Trauma Surgeon
- MVH Emergency Medicine Physician (CareFlight Med Control Physician)
- Field Amputation Kit
- Emergency-release Blood Products

CareFlight helicopter(s) and/or MICU(s) will transport all assets to the scene.

Patient transport to Level I Trauma Center, Miami Valley Hospital

All MVH PSR responses will be reviewed by the MVH Level I Trauma Program Director and the CareFlight Medical Director.

Follow-up will include providing a direct post-response debrief with the EMS/Fire agencies involved.
