

Ohio Region III Rescue Strike Team

OFA Confined Space Rescue I & II NO COST!!!

Dates: September 7-10 in person

(Online course work starts August 1st)

Time: 0800-1700 each day

Location: Ohio Task Force 1 Training Center

This course combines learning objectives for both Confined Space Rescue level I and level II and covers all of NFPA 1006, Chapter 7. Topics include basic equipment review, atmospheric monitoring, confined space pre-planning with considerations for rescuer health and safety, making entry through small openings, and execution of a confined space rescue including patient packaging and care. Students must complete written and hands-on skill competency evaluations to successfully complete the course.

REQUIREMENT: Documentation of successful completion of NFPA 1006, 2013 edition; Chapter 5: Job Performance Requirements, Chapter 6: **Rope Rescue I or equivalent** certification is required to enroll

- Priority will go to current team members followed by non-members
- Non-members should submit certificates and/or documentation of current rescue certifications as proof of prerequisites
- Clothing should be appropriate for outdoor training regardless of weather conditions
- Students are responsible for providing their own safety footwear and appropriate work clothes. Helmets, headlamps, hearing and eye protection. and any other related equipment will be provided to students from the Region 3 cache
- **All interested persons should complete the registration form, scan and email it immediately to:**
