Whether you're curious about what Community Paramedicine entails, considering starting a program or already have an existing one, this is the perfect place to be.

There will be speakers from various Ohio Fire Departments who will share their valuable insights and experiences with their Community Paramedicine programs. They'll provide a range of perspectives and practical knowledge that can help guide you in developing or enhancing your programs. We'll also present some regional resources that you may find useful.

The afternoon will consist of a roundtable to allow an opportunity for questions and establishing connections. We look forward to sharing an opportunity to explore Community Paramedicine.
