Not Your Parent's THC. Current Cannabis Products and Toxicity in Pediatric Patients

Thursday, February 13 from 1 – 2 p.m.

[Register HERE](#) or by scanning the QR code below

Join Ohio EMSC as we learn more about cannabinoids/THC and pediatric cannabinoid intoxication.

The lecture will be followed by time for questions about pediatric cannabinoid intoxication and general pediatric readiness.

Alek Adkins, MD
OSU Wexner Medical Center
Nationwide Children's Hospital

Speaker Objectives:

1. Audience members will gain an understanding of common cannabinoids that are available as well as new emerging cannabinoids.
2. The viewer will be able to differentiate the signs and symptoms of THC intoxication between different pediatric age groups.
3. The viewer will learn about current and novel treatment modalities for THC intoxication.

EMS CE offered through [NCH CloudCME](#)
