

CYBER RESILIENCE CONFERENCE HEALTHCARE 2026

WEDNESDAY, OCTOBER 14, 2026

8:30 AM–2:30 PM

201 TYLER WAY, MORaine, OH 45439

Register Here:
Professional: \$20
Student: \$10

Cyber threats don't just threaten data. They threaten patient care across the continuum.

The **Cyber Resilience Conference: Healthcare 2026** brings together healthcare leaders, cybersecurity experts, and government partners to confront today's evolving threats, strengthen resilience, and ensure healthcare organizations are prepared to respond when—not if—a cyberattack occurs.

WHAT ATTENDEES WILL GAIN

- ✓ Practical strategies for building cyber resilience
- ✓ Lessons from real-world healthcare cyber incidents
- ✓ Incident response and recovery strategies
- ✓ Executive leadership and crisis communications
- ✓ Protecting clinical operations and patient care
- ✓ Threat intelligence and emerging threats
- ✓ Collaboration between healthcare, government, and cybersecurity leaders.

THREAT BRIEFING

We'll open with a threat briefing that examines who is targeting healthcare, how they're attacking, and—most importantly—what organizations can do to better defend themselves.

FIRESIDE CHAT

Healthcare leaders will share how cyberattacks are changing their preparations, response, and evaluation of technology in the face of rapidly escalating advances—along with lessons learned to help others prepare.

OPEN DISCUSSION

An interactive discussion of the biggest challenges facing security, information, and IT teams—with attendees working together to identify practical solutions.
